Dear Republican Conferees of the 12<sup>th</sup> Congressional District

A Man to Serve the People...

Over the past ten years I have had the privilege to get to know State Representative Fred Keller. Fred has been a tireless conservative voice in Snyder County, throughout our district and in Harrisburg. Fred has met with the Snyder County Commissioners many times to find out what problems our county is facing and he is always ready, willing and able to help me find answers when I have questions about anything state related. Fred has also done a great job in getting to the bottom of issues, even when he must pry to get answers. If you ask people throughout the 12<sup>th</sup> Congressional District, Fred Keller is a name known by many with a reputation respected by most. I always tell people across the state we have one of the hardest working State Representatives in Fred Keller. He attends events throughout his district constantly and his constituents are always saying "he's everywhere."

I have been very impressed with his calm demeanor, his humility and his ability to answer a question honestly, without worrying about whether his answer will offend someone. We need people of character representing us and I believe Fred would make a great Congressman in Washington DC. I ask you to give Fred Keller serious consideration as we enter the conferee process.

Sincerely,

*Joe Kantz*

Chairman, Snyder County Commissioners
